

All dimensions in mm

Item	Item No. zinc-coated	Item No. VA2	Item No. VA4	Description
60 LM - M8	21005183	21016213	21016772	Thread connection M8
60 LM - M10	21005184	21016771	21016773	Thread connection M10

Technical data

max. tensile strength: if use M 8 = 1000 N
M10 = 3000 N

Bending load*: if use M 8 = 9000 N
M10 = 10000 N

*) Data for zinc-coated design by use thread quality 8.8

Description

Fastener for the supporting of rectangular ventilating ducts, pipes etc. for threaded rod connection M8 or M10. This construction enables easy adaption to different trapeze ceilings.

Specification

Zinc-coated, high-grade steel A2 and A4

Preferable fields of application

Air-, climate-, sanitary- and heating technology

Also STAINLESS available
RUST
PROOF
